

# Knowledge Exchange Network for Biodiversity Monitoring

## Core activities of the Monitoring Knowledge Exchange Network:

- Participates in knowledge requests from the European Commission
- Integrates knowledge for the 2030 EU Biodiversity Strategy, the Nature Restoration Regulation and the Habitats and Birds Directives
- Activates the existing network of key institutions, EU projects and experts in the field of biodiversity monitoring (e.g. IPBES; Biodiversa+; EuropaBON)
- Explores how Indicators, Essential Biodiversity Variables (EBVs) and Essential Ecosystem Services Variables (EESVs) are linked to European policy

# Knowledge Exchange Networks

In response to the European Green Deal and the 2030 EU Biodiversity Strategy, BioAgora develops a **Science Service for Biodiversity (SSBD)** for facilitating a dialogue between researchers and policy-makers.

The project develops topical Knowledge Exchange Networks to address key knowledge needs identified in support of the EU's biodiversity policy.
